Please contact ECHOPrograms@salud.unm.edu with any questions or concerns.

ECHO is a movement to demonopolize knowledge and amplify the capacity to provide best practice care for underserved people all over the world.

In order to support the growth of the ECHO movement, Project ECHO collects participation data for each teleECHO™ program. This data allows Project ECHO to measure, analyze, and report on the movement's reach. It is used in reports, on maps and visualizations, for research, for communications and surveys, for data quality assurance activities, and for decision making related to new initiatives.
