

HARMONIC EGG

OF BOULDER COUNTY

Harmonic Egg of Boulder County harmoniceggbc.com 720-708-4042

The Harmonic Egg experience is a restorative emotional and physical response to light and sounds, promoting a sense of internal balance and well-being. In addition to helping people feel relaxed and alleviate stress, the Harmonic Egg has been shown to support a wide range of health related issues. Our experience has shown that the various healing attributes of the Harmonic Egg restore balance to the body, thereby assisting in the healing process.

Sessions for the Detox Program will be as a group and remote (not in person). The Egg sessions will be scheduled Wednesday nights from 6-7pm for 4 weeks. To make sure you benefit the most from the sessions, plan to be relaxing during those times. You will be bathing in the sound and light healing frequencies during that time, and the healing will continue to detoxify your cells for 5-7 days afterwards.

Testimonial from Remote Session with Mr. Sid in India, dealing with deep seated Trauma

Dear Mary, thank you for the wonderful sessions. Regret the delay in responding, If I may share today, there are a few trapped fears, anxiety energy on my scalp that gets aroused/activated about thinking of moving to new job, place or going to social places/events. There's residual energy stuck inside me which gets triggered by certain events while a majority of parts have been healed. I do want to say that your support has been very motivating and your healing has been truly deep. I remember 2 weeks back, you did a deep healing and I was releasing pent-up energy from me using EMDR so easily, I kept doing the eye movements and more & more pent up energy kept coming out. This went till late in the night after which I dozed off to sleep. On the bright side, the level of functionality has gone up substantially. It's just some deep seated core stuff that needs to be released now to become whole again.
