

On a snowy January Saturday morning – Lindsay, Michael and their 4-children celebrated the dedication of their new Habitat Home at Maloney Heights! They broke ground on Jan 6, 2019, raised the walls on March 16, 2019 and moved in on January 18, 2020! More than 4-times over the last few years Lindsay and Michael along with their children would get settled into a new rental, only to be informed a short time later by the landlord that they would need to move, because the home was being put on the market to sell, in a very hot housing market in Washington State. Finally the family of 5 and a half (as Lindsay was pregnant) moved in with her parents, to a two bed one bathroom home in Port Angeles, 4-adults, 3-children and a baby on the way. The family stored what they could of their possessions and settled into the cold drafty garage while they figured out what to do next. Lindsay saw a flyer at First Step Family Support Center in Port Angeles for the Habitat Clallam New Home Buyer information class, she attended, submitted the application and was thrilled to be accepted. Now Lindsay, Michael and their 4-children have a safe, decent, affordable home of their own, and do not have to fear that a landlord will tell them to move!
