

Acute Engineering

Founded in 2002, Acute Engineering provides fast, reliable and accurate structural engineering services at a competitive rate. Our outstanding customer service sets us apart. As one of Utah's largest residential focused engineering firms and with a staff of over 40 we are well equipped to service any project need from high end custom builds to spec homes. Give us a try and see the difference, call 801-229-9020 and ask for Jacob.
