

# Blink Water Solutions

Blink Water Solutions offers the latest technology in Water Treatment Equipment & Smart Home Leak Detection Systems. With over 25 years of combined experience we have fused the technologies of removing contaminants in our drinking water, eliminating hard water scale & damage to fixtures & appliances, all while conserving & virtually eliminating catastrophic leaks & damage to homes and property. This technology gives complete control via any smart phone in the palm of your hand. We believe in water conservation while protecting our homes and health. This new technology is another stop in smart home integration.
