

Pacific Tile LLC

We are an importer/distributor of ceramic tile, founded in July 1986 in Anchorage, Alaska. Our branch in St George is about to open. We will distribute only very large format porcelain tile slabs, typically measuring 40" wide, 8' or 10' long. We will inventory a very broad assortment in St George with a showroom that is designed for use by architects, interior designers, builders, tile installers, stone fabricators and cabinet builders. The high-end atmosphere, unstaffed showroom will not be open to the public, but will be available for your use 24/7 via keyed access security system.
