

S & S Homes

S & S Homes, established in 1980 by the Sullivan Family. The Sullivan family has made its home in Southern Utah for generations. Our ancestors worked hard to build homes of quality and beauty for their families. Homes where children could grow, relationships will develop, and memories are made. Craig and James believe in the golden rule of treating others as they'd like to be treated. They've built hundreds of homes throughout Southern Utah, and established community ties with those for whom they built.
