

Southwest Marble and Granite, Inc.

Southwest Marble and Granite started in 1999 in St. George. Over the last 20 years we have set ourselves apart as the shop that can do the complicated jobs. Other fabricators refer customers to us when the material or job require above average skills. You will not find a more enjoyable group to work with than our staff. Each has years of experience in the industry. See for yourself, check out our reviews on Google or stop by to see for yourself.
