

Sullivan Homes

Sullivan Homes specializes in quality residential construction, and the Just Right home building experience. Established in 2003, Sullivan Homes ranks among the top 10 builders in Southern Utah. Our mission is to build the home that is “Just Right” for our customers. Just Right in Size, Features, and Price. This means Sullivan Homes will always be the best value by including standard features our customers aspire to, rather than upgrade to. We pride ourselves building a quality home with personalized details rather than house that looks like all the rest. Let us show you the difference.
