

Yvonne Christensen Design

I have specialized in new construction design for the past 10 years and through the years I have developed special relationships with builders, suppliers and subcontractors and I have become great friends with the people I am lucky enough to collaborate with. I've been participating in the Southern Utah Home Builders Association St George Area Parade of Homes every year since 2014 and in 2020 I will have two homes in the parade of homes, one for Jensen and Sons and one with American Heritage Homes. I recently expanded my team and I am thrilled to offer additional services with such great ladies!
